LAUNDRY DETERGENT

LOW SUDS LAUNDRY DETERGENT

Description:

LAUNDRY DETERGENT is amazingly mild and will not damage fabrics or shorten linen life. **LAUNDRY DETERGENT** is a complete product and normally requires no additives for the excellent wash results. **LAUNDRY DETERGENT** is perfect for any machine washable clothes. Completely soluble and rinses easily and thoroughly, leaving no irritating or scratchy deposits. **LAUNDRY DETERGENT** is designed for every make, model and type of automatic washer. Won't clog or slow down wash-rinse action as excessive suds can. **LAUNDRY DETERGENT** is a select blend of moderately alkaline builders for superior particulate soil suspension. CMC is incorporated as an anti-redeposition compound. Optical brighteners and color-safe oxygen bleach are carefully combined to provide glistening whites and bright colors. Nonionic and anionic surfactants team up to remove oil and grease stains. Water softeners are included to give equal performance in hard or soft water and to prevent graying.

Directions:

1. Pre-sort laundry prior to wash.
2. Pre-soak or pre-spot laundry when necessary.
3. Place proper amount of detergent into laundry machine.
4. For wash cycle, use a Quarter Cup per load.
5. When bleaching, use a recommended laundry bleach at the proper dilution.
6. When souring and/or softening, use a recommended sour and/or softener at the proper use dilution.

Dilution Rates:

For HOME Laundry: Use 2 ounces (one quarter cup) per full washload.

For COMMERCIAL Laundry: Recommended usage under ideal conditions in 12 ounces per 100 lbs.

Specification Data

Color:	White
Fragrance:	Lemon
Brighteners:	Two Types
Foam:	Low
Chlorine:	None
pH 1% Solution:	10.5 - 11.5
Solvents:	None
Phosphates:	None
