

ALL TEMP DRYING AGENT™

Heavy Duty Rinsing Agent

ITEM# FCDA

ALL TEMP DRYING AGENT™
Heavy Duty Rinsing Agent

WENCO® ALL TEMP DRYING AGENT™ is a concentrated non-ionic rinsing additive. ALL TEMP DRYING AGENT™ lowers the surface tension of the rinse water in the rinse cycle. This sheeting action eliminates water spots and streaks that can make clean dishes look dirty. ALL TEMP DRYING AGENT™ also has the ability to suppress foam at temperatures above 115°F. This de-foaming capability allows for more efficient operation by increasing performance of pumps. This product can save many dollars as compared to hand drying. ALL TEMP DRYING AGENT™ can be used through auto dispensing equipment or a separate rinse tank.

DIRECTIONS FOR USE

Contact your Walter E. Nelson sales representative for proper machine setup, dilution and use instructions.

Depending on water conditions the injection system should be set to deliver 50-300 PPM rinse aid or approximately 1/3 oz. per 10 gallons in the rinse cycle. This concentration level must be maintained with an injection system. Adjust the injector to achieve rapid sheeting.

NOTE: If temperature in the dishwasher is allowed to drop below 120°F, excessive foaming may result. For best results ALL TEMP DRYING AGENT™ should be used at 125°F or above.

TECHNICAL PROPERTIES

Form.....Liquid
Color.....Blue
pH.....5.0 - 7.0
Specific Gravity @ 75°F.....1.004
Density @ 75°F.....8.36 lbs Per Gallon
Viscosity @ 75°F.....Thin
Freeze /Thaw Stable.....Yes, 3 Cycles
Biodegradable.....Yes
Phosphates.....None

AVAILABLE SIZES

- ✓ 5 Gallon Pail
100% Recyclable
- ✓ 55 Gallon Drum
Reconditioned, Reused

1	HEALTH
0	FLAMMABILITY
0	REACTIVITY
B	PERSONAL PROTECTION
