

WENMIX # L24

RUST REMOVING SOFTENER

WENCO® RUST REMOVING SOFTENER™ is a combined softener and sour in one convenient product. RUST REMOVING SOFTENER™ contains high active cationic fabric softeners. Towels and diapers come out fluffy and soft. RUST REMOVING SOFTENER™ adds sheen to flat work and acts as an anti-static agent. This product improves ironing efficiency and drying time by making it easier to remove water from the work in the spin cycle. RUST REMOVING SOFTENER™ extends the life of the fabric by neutralizing excess alkalinity in the wash water. RUST REMOVING SOFTENER™ will prevent graying and stiffness by removing any alkali carbonate salt deposits.

ITEM# FGWML24G

DIRECTIONS FOR USE

WEAR GLOVES & EYE PROTECTION

Contact your Walter E. Nelson sales representative for proper machine setup, dilution and use instructions.

1. RUST REMOVING SOFTENER™ should be added in the rinse cycle. Adding the softener to the wash cycle will reduce its transfer to the fabric and may contribute to graying of the work.
2. Use amounts will vary with different amount of hard water and alkali carryover, etc, therefore the operator should review the use level frequently.
3. Add 3-4oz per 100lbs dry weight.

TECHNICAL PROPERTIES

Form.....	Liquid
Color.....	White
Fragrance.....	Floral
pH.....	1.5 - 2.5
Specific Gravity @ 75°F.....	1.06
Density @ 75°F.....	8.8 lbs Per Gallon
Viscosity @ 75°F.....	<100 cps
Acid Type.....	Hydroxyacetic Acid
Chlorine.....	None
Foam.....	None
Solvents.....	None

AVAILABLE SIZES

- ✓ 4x1 Gallon Case
Bottles Contain 25% PCR
Carton Contains 55% PCR

2	HEALTH
0	FLAMMABILITY
0	REACTIVITY
