

LAUNDRY SOUR™

LAUNDRY SOUR™

WENCO® LAUNDRY SOUR'S new formulation allows for more effective alkali neutralizing. A powerful pH adjuster which is more effective than traditional acid type commercial laundry sour. Ideal for use in areas with high iron levels. Use to prevent graying, rust and stain removal to also help reduce textile rejects. No VOC's for user safety.

DIRECTIONS FOR USE

WEAR GLOVES & EYE PROTECTION

Contact your Walter E. Nelson sales representative for proper machine setup, dilution and use instructions.

1. **LAUNDRY SOUR™** should be added to the washwheel at a low water level for economical performance.
2. The souring step should be done in cool to warm water 90°F - 110°F.
3. Titrate 1 quart of wash water with **LAUNDRY SOUR™**. The number of mls used is equal to the number of ounces needed to neutralize 10 gallons of washwater.
4. Use this product only in commercial washer with stainless steel equipment. **DO NOT use in household type washing machines.**
