

MINT BOWL™

“Thick” Clinging Rest Room Cleaner

WENCO® MINT BOWL™ is a thick, mild acid restroom cleaner that is designed to remove moderate hard water stains from toilet bowls and restroom fixtures. It clings to horizontal and vertical surfaces for longer contact time. Can be used in rest rooms, shower rooms, etc... any commercial, institutional facility. Leaves a fresh, clean mint fragrance behind after using.

ITEM# **FCMB**

MINT BOWL™
“Thick” Clinging Rest Room Cleaner

DIRECTIONS FOR USE

Wear appropriate personal protection when using.

TOILETS BOWLS & URINALS: REMOVES HARD WATER DEPOSITS, RUST STAINS, AND OTHER STAINS. 1. **MINT BOWL™** works more effectively when water is removed from the trap. This can be accomplished by using the bowl applicator or by pouring a bucket of water in the toilet. 2. Apply **MINT BOWL™** to the bowl swab (1-2 oz.). Swab up and around under the rim to clean and deodorize. **MINT BOWL™** can be squirted directly into the bowl if tough stains exist. 3. Let stand for 2 minutes and flush the toilet/urinal.

CERAMIC TILE, PORCELAIN, SHOWER WALLS, FIBERGLASS: SCALE AND SOAP SCUM WILL INSTANTLY DISSOLVE AWAY. 1. Apply **MINT BOWL™** to stained areas. 2. **MINT BOWL™** can be agitated with a doodle bug/brush for tough stains. Give ample working time (3-5 minutes) to help loosen soil. 3. Rinse off with water. 4. Do not allow **MINT BOWL™** to dry on metal surfaces.

TECHNICAL PROPERTIES

Form.....Liquid
Color.....Clear Green
Fragrance.....Mint
Specific Gravity @75°F.....1.04
Density @ 75°F.....8.67 lbs Per Gallon
Viscosity @ 75°F.....Approx. 200 cps
Stability.....1 Year Minimum
Acid Content.....9.5% HCL

AVAILABLE SIZES

✓ **12x1 Quart Case**
100% Recyclable
