## RE-FRESH - Odor Eliminator & Refresher

WENCO® WENMIX RE-FRESH™ is a new combination product, containing both odor control ingredients and malodor counteractants. The advanced malodor deodorizing technology captures the malodors and locks them away. This advanced refresher technology is maximized by direct contact with the malodor molecules. RE-FRESH™ is also effective as an odor control product in non-contact uses. For best results spray a light mist on the odorous fabric or hard surface. Odor will fade immediately.
